

RedStone NOW

POWERFUL TMS FOR SMARTER SHIPMENTS

In today's fast-paced business environment, shippers need their operations to be fast, efficient, and reliable. RedStone NOW is the ultimate solution for shippers to book LTL, TL, and multimodal loads with ease at the lowest rates on the market.

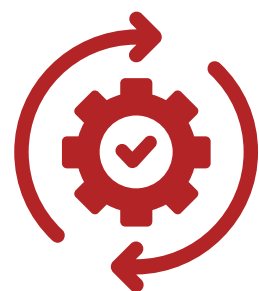

RedStone Logistics is excited to introduce its newest technology for shippers, RedStone NOW. With NOW, shippers can enjoy improved efficiency, enhanced visibility, and reduced costs for managing their transportation operations. The user-friendly TMS offers a range of features and benefits that help shippers optimize their operations and improve their bottom line.

REDUCED COSTS

RedStone NOW can optimize carrier selection, reduce manual work, and streamline billing processes - reducing costs. Our TMS allows users to manage carriers and select the best options for each shipment based on factors such as cost, capacity, and transit time. With RedStone NOW, shippers can save time and money while enjoying a more streamlined transportation management experience.

IMPROVED EFFICIENCY

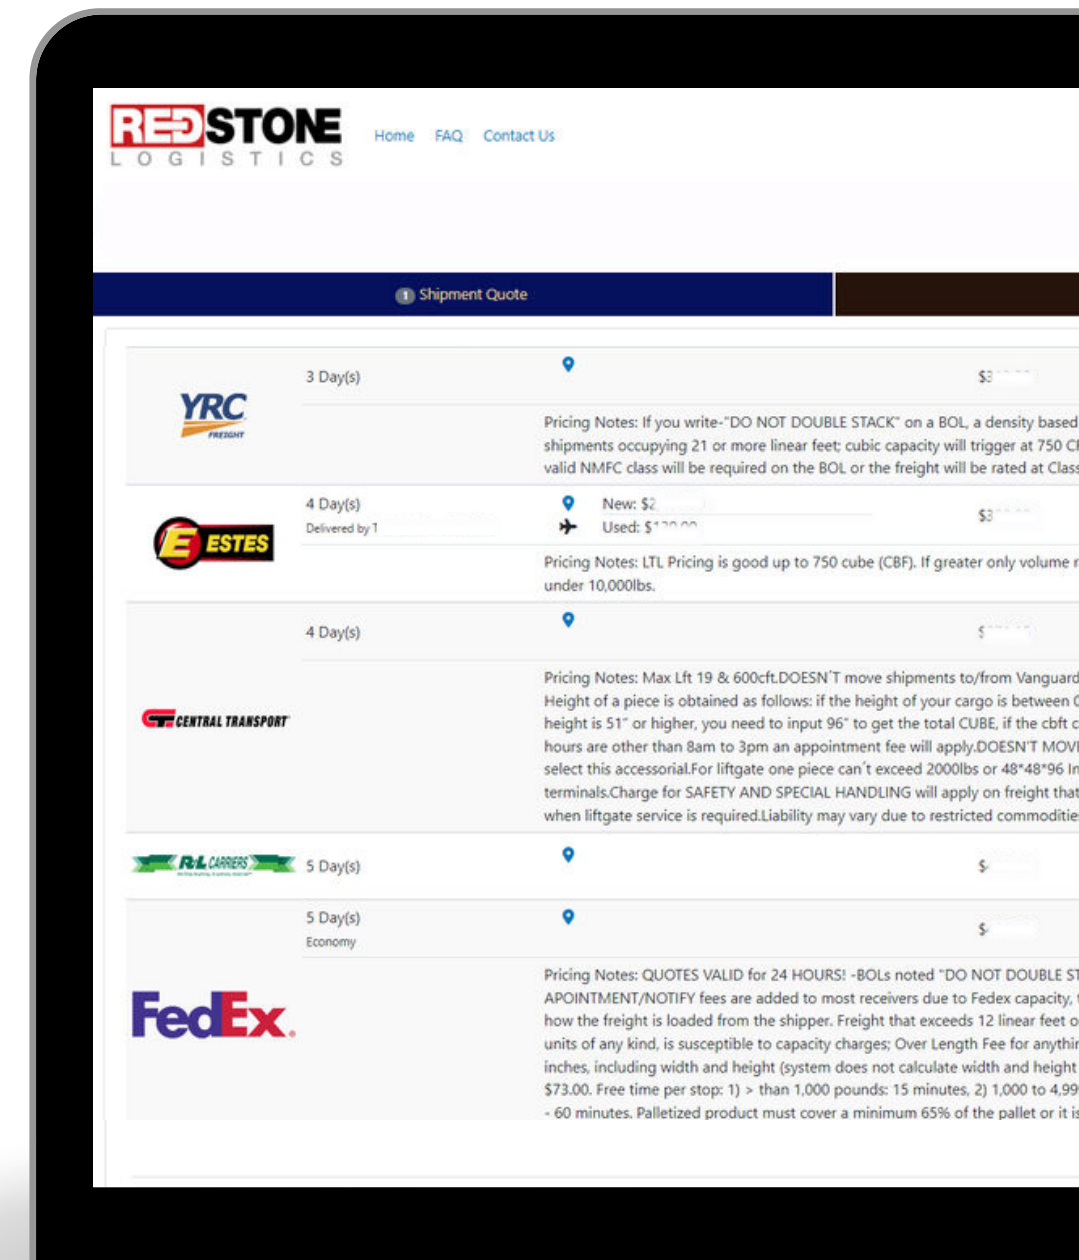

With RedStone NOW, shippers can automate routine tasks, reduce manual work, and handle more shipments with less effort. Our TMS helps optimize workflows by automating tasks such as scheduling pickups and deliveries, reducing manual work and improving overall efficiency.

ENHANCED VISIBILITY

Our TMS offers real-time tracking and visibility, enabling users to make informed decisions and communicate with their partners and customers. RedStone NOW allows shippers to track the location and status of their shipments at all times, ensuring transparency and accountability throughout the entire transportation process.

RedStone **NOW**

Your one-stop TMS for all things shipping.

Unlike our competitors, RedStone NOW is committed to providing our customers with a powerful and cost-effective solution for managing your transportation operations. With RedStone NOW, shippers can optimize their operations, improve their bottom line, and provide a better overall customer experience. Our TMS is user-friendly, easy to use, and designed to help shippers of all sizes to achieve their transportation management goals.

Don't sacrifice high quality service for the lowest cost.

Get the best of both worlds with RedStone NOW.

AGGRESSIVE RATES

Our shipment rates consistently beat out those of our competitors by a wide margin. Compare and see for yourself.

CARRIER MANAGEMENT

Our TMS allows users to manage carriers and select the best options for each shipment based on factors such as cost, capacity, and transit time.

ANALYTICS AND REPORTING

RedStone NOW provides analytics and reporting capabilities, allowing users to track key performance metrics and make data-driven decisions.

AUTOMATED WORKFLOWS

RedStone NOW can automate routine tasks, such as scheduling pickups and deliveries, tracking shipments, reducing manual work, and improving efficiency.

INVOICING AND BILLING

Our TMS streamlines invoicing and billing processes, reducing administrative tasks and improving accuracy.
