

# Private Brokerage Program

## Concierge service without hidden fees

We understand delivery to your customers can make or break a business and we take it seriously. That's why we commit to bringing our concierge service, at the lowest cost, with no hidden mark-ups.

In return we need a commitment from you. Our model is dependent on 100% of your brokered volume, however we can include your current brokers in the process.

- A minimum 12-month agreement, with an escape clause based on savings & service
- 21-day payment terms
- Access to key stakeholders for quarterly reviews

## Changing the Game with Commitment to Service

One of the highlights doing business with brokers is the personalized service they deliver. What if you could get the same personalized service from your own Private Brokerage Team operating in a fully transparent manner, dedicated to you and your company?

## Private Brokerage Program Model

### Commitment to Service

A good broker provides great service. Your own Private Brokerage team knows you, your company, your customers and provides unparalleled service and commitment to your success. No rolled loads, No give backs.

### Access to Technology

You'll have access to RedStone's technology suite delivering process automation, A.I. driven instant quoting, shipment tracking, a customizable reporting package, and much more.

### Immediate Savings

Transparent pricing with zero hidden mark-up's. Designed to operate at approximately 50% of traditional broker margins, we set a reasonable management fee which you'll see on every invoice, giving you peace of mind that you're always getting the best deal. **On average, clients see an average of 6-11% on savings.**

### No Secrets

Good decisions start with good data. You'll have access to all your information, including buy rates from carriers, customized reporting and real time status updates to help you make the best decisions with the most accurate insights available.
